*The illustration shown may include additional accessories.*

The ACZ-101 Spider compressed air pistol is intended both for sports shooting and for competition shooting complying with ISSF regulations. New ergonomic design of the grips available in different sizes and low weight of the pistol make it ideal for both junior and senior shooters.

### Front sight, Compensator and separator

The integrated front sight has three different widths. By simply turning it, the width can be changed from 4.2 mm to 4.8 mm or 5.2 mm.

### Direct loading system

Simple and effective loading system designed to improve accuracy and reliability. The trigger system allows for easy dry fire operation.

### Grip adjustment

New ergonomic grip design easily fits any hand and is available in three sizes (S,M,L) and for the lefthand in the M size. The grip can be turned in its longitudinal axis up to 5° and also in its lateral axis by another 5°.
